# STORY

---

THE BIRTH OF FYSIK BESPOKE GYM EQUIPMENT

**FOUNDERS:** Henrik Olofsson & Amm Tarasansombut

**LOCATION:** Bangkok, Thailand

"Henrik, we should have something really unique in our gym, why don't we make some beautiful looking gym equipment?"

Those words mark the beginning of FYSIK. The year is 2015 and husband-and-wife Henrik and Amm are in the middle of planning the opening of their own personal training studio in Bangkok, Thailand.

This first set of gym equipment was the result of a combined love for craftsmanship and passion for fitness. And soon the word spread about the small training studio in Bangkok with the well-made, beautiful looking gym equipment.

These days the gym is history, but the requests from people all over the world and the making of our bespoke gym equipment is growing day by day.

*"Deviating from the standard look of gym equipment design, our efforts is to make products rich with tactile experiences and using high quality materials that age well."*

*Each new product enters the FYSIK collection with the same ambition in mind - to reflect a healthy lifestyle by offering a refined design experience that actually works, timeless in both aesthetics and function. In other words, products that don't need to be hidden away"*

Henrik & Amm, FYSIK founders

The minimalistic and universal dumbbell stand; **No3™** - made from leather and stainless steel - does a great job cushioning the weights while at the same time disappearing when in use and letting the dumbbells take the front stage on display.

*Details p.52*

## Simplicity; the ultimate sophistication

Sometimes all you need for a good workout is a set of dumbbells. For that purpose, the NAK™ dumbbell collection is a perfect choice. With its simple form it looks great in any environment.

*Details p.47*

NAK™ dumbbell  
Walnut | tanned brown, p.47

# Handcrafted elegance for the items you care for

The modular No1™ dumbbell stand  
can be combined in endless  
variations and comes in 3  
different widths to accommodate  
all FYSIK dumbbell collections.

This vertical dumbbell and kettlebell tower can hold up to 8 dumbbell pairs and 4 kettlebells, allowing for a complete set of gym weights in a space of only 75 cm/30" diameter footprint. With a 360 degree rotating base you can place this vertical tower in a corner and still comfortably access all weights. A true statement and a great workout companion.

*Details p.53*

## A new era of gym equipment display

Vertical dumbbell tower | PEN™ dumbbell | MAI™ dumbbell | KRABA™ kettlebell  
Maple | white, p.53

PEN dumbbell  
Maple | white, p.47

Each arm of our vertical dumbbell tower is tailored to fit the specific dumbbell stored and unlike conventional gym racks, the handles are at a safe distance from pinching your hand when racking the weights.

MAI™ dumbbell  
Maple | white, p.49

Functional art that  
always performs

KRABA™ kettlebell  
Maple | white, p.49

## Refined touch and delicate details

With fine craftsmanship and a balanced blend of quality materials, the 2-tier horizontal rack gives a new meaning to how you display gym equipment.

2-tier horizontal dumbbell rack | PEN™ dumbbell  
Oak | tanned brown, p.54

2-tier horizontal dumbbell rack | PEN™ dumbbell  
Oak | tanned brown, p.54

back; LOMM™ fitness ball (Ø65 cm/26") | Tanned brown , p.49  
left; YAI™ medicine ball (Ø35 cm/14") | Tanned brown, p.49  
right; BONN™ medicine ball (Ø25 cm/10") | Saddle brown, p.49

The clean look of our horizontal dumbbell rack stands out, yet it blends in with a well styled home in a way gym equipment have never done before.

Perfectly built  
to stand out in your home

Horizontal dumbbell rack | NAK™ dumbbell  
Teak | black, p.54

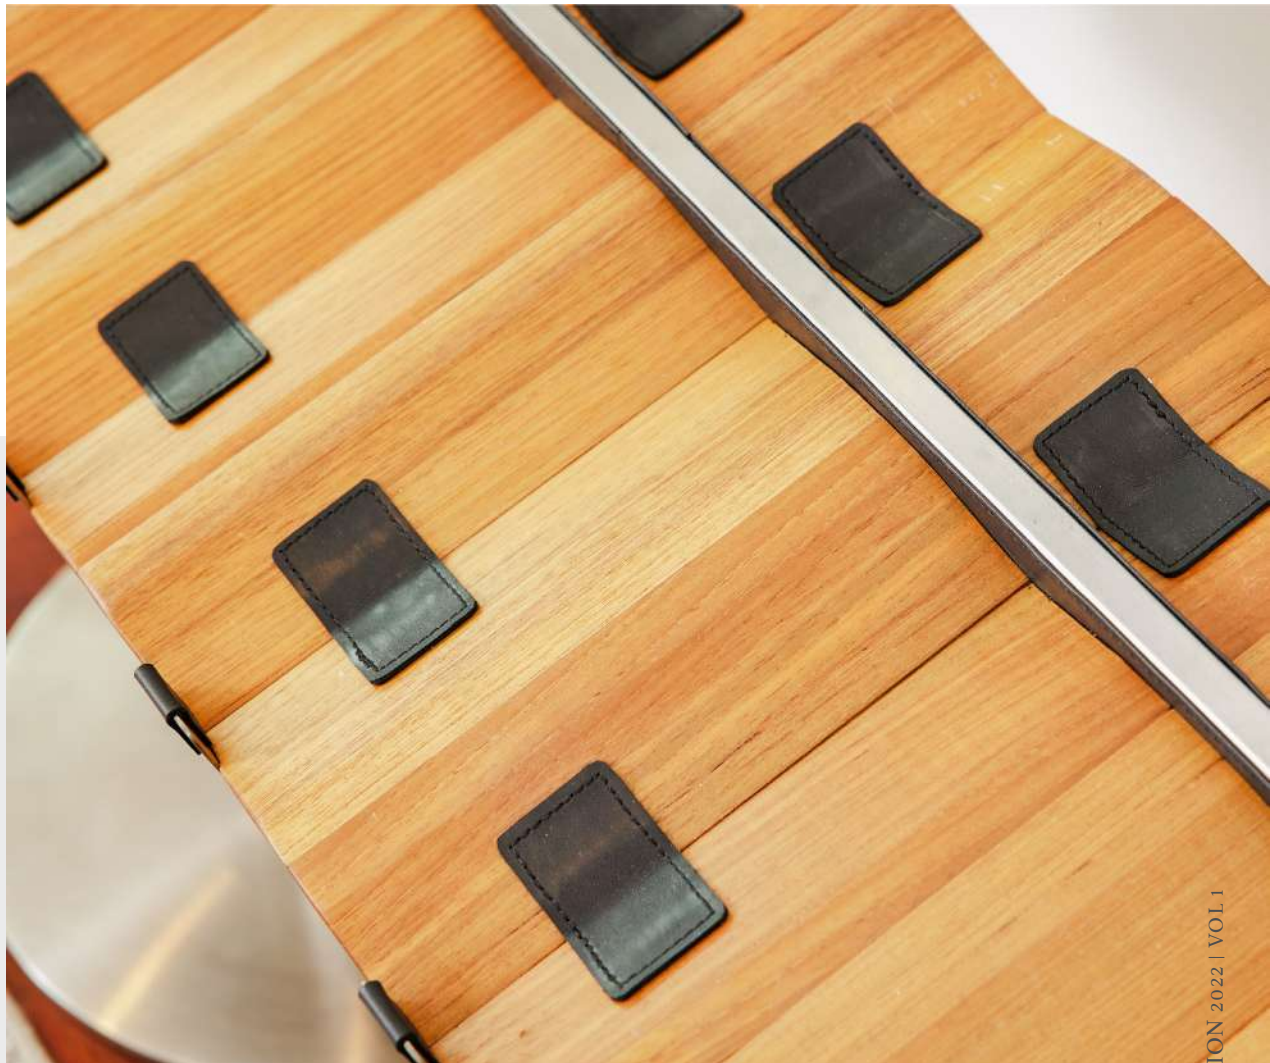

Horizontal dumbbell rack | NAK™ dumbbell  
Teak | black, p.54

With slanted pieces of timber, cut to accommodate the diameter of each dumbbell, there is always a perfect place for your dumbbells on our horizontal racks.

Always in place and  
on point

Resting on a set of stainless steel legs, the bed of solid timber also have numbered leather pads to provide a cushioning effect and ease of racking your weights after use.

*Details p.54*

# Evolution is inevitable

The signature pill shaped handle of KRABA™ kettlebell not only confers a softer aesthetic to a versatile exercise tool but also offers an increased handle width that allows for a full grip while using the kettlebell with both hands.

*Details p.48*

# Reinvent your home gym

No matter what angle you approach from, the vertical kettlebell tower always accommodates. With a rotating base and overlapping arms made from solid wood, not only does it host an impressive amount of weight in a small space, it also looks on point. Hence it always performs, even when not in use.

Vertical kettlebell tower | KRABA™ kettlebell  
Oak | tanned brown, p.53

Getting noticed is not a  
concern for NANG™

The tactile experience when adjusting the 9 different seat angles of NANG™ makes it not only visually pleasing but also gives sensory satisfaction.

The function for this adjustable gym bench is fulfilled by its sturdy base and wheels for mobility.

Built using our classic materials of solid wood, stainless steel and leather upholstery.

*Details p.50*

NANG™ gym bench  
Maple | white, p.50

Designed for the tactile  
experience

NANG™ gym bench  
Maple | white, p.50

# New heights of practical elegance

BONN™ medicine ball  
left; saddle brown | right; black p.49

The idea of storing any item vertically has a host of benefits; such as freeing up floor space and improving ergonomics. The vertical accessory tower offers all of this, as well as a striking look that goes beyond the practical benefits to help transform your space to new heights.

A fresh take on a  
classic look

BONN™ medicine ball  
| black, p.49

Staying in shape has  
no beginning or end

The LOMM™ fitness ball is the perfect companion for an effective core workout. It also doubles as your office chair to keep your torso upright and your body alert while spending time sitting. Match the leather color with your favorite piece of furniture and make this inflatable fitness ball a corner stone of your work:health balance.

*Details p.49*

The contrast between materials of the wood, stainless steel and leather adds elegance to BAO™ speed rope. Bring it while traveling, keep it in your gym bag or hang it on the wall in your living room. Your coordination, foot speed and cardiovascular health will thank you no matter what.

*Details p.50*

# Lightness defined

BAO™ speed rope  
Teak | black, p.50

DOD™ jump rope  
Teak | black, p.50

Clean lines is the essence of our DOD™ jump rope as a remembrance of our Asian heritage. The weight of the handles instantly gives an added sense of value to the user and magnifies the training effect of your shoulders, wrists and heart.

We are  
tool builders

*"When we make a product we always think about long-lasting pieces that are a part of the cycle network of things. That you can pass on to the next generation"*

SAI™ boxing bag  
White, p.51

Our version of one of the most iconic pieces of gym equipment; the SAI™ boxing bag, is not by reinventing its shape or use but rather making the quality of materials and details speak for themselves. With reinforced leather and stainless steel components this bag will take a compliment and a punch with equal grace; and always keep going.

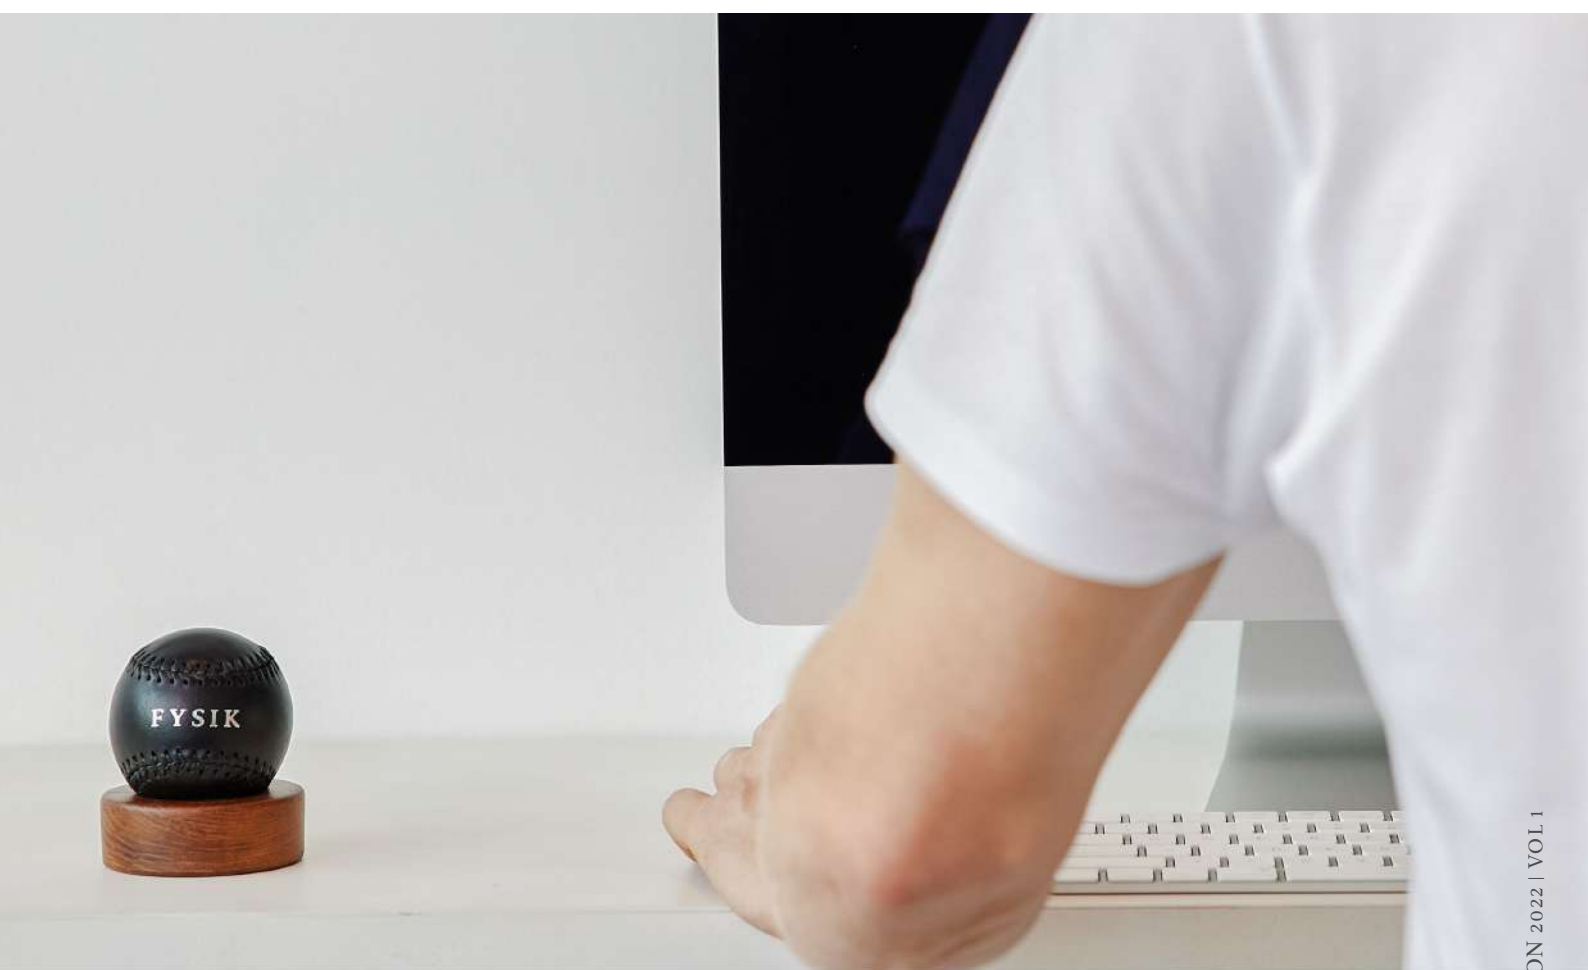

*Details p.51*

Traditions of tenacity  
brought home

The release you need

LEK™ massage ball  
Black, p.51

By applying pressure on trigger points this massage ball does a great job in releasing tight and stiff muscles. Use it against the wall or on the floor and target your muscles in lower body (calves, hips, etc) or upper body (shoulders, back, forearms, etc) for instant release and recovery\*.

*\*DISCLAIMER: THIS CATALOGUE DOES NOT PROVIDE MEDICAL ADVICE*

# CRAFTSMANSHIP

---

In a world that relies mainly on automatization and mass production, it is unique to see things made with passion and the dexterity of human hands.

Our artisans are diligent craftsmen who take pride in their work and we maintain the design and crafting process at our workshop in Bangkok, Thailand.

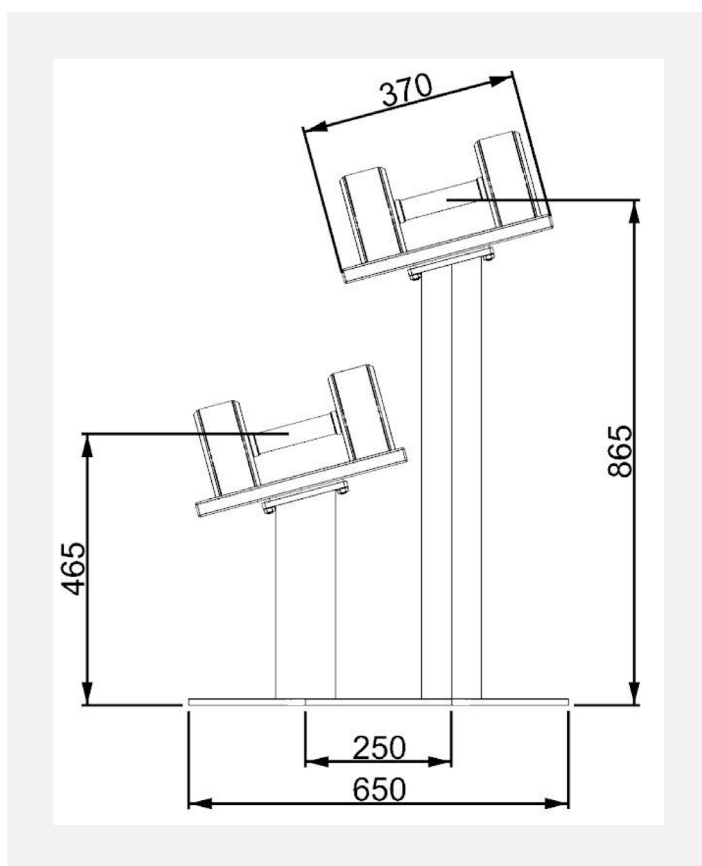

From the very start, our goal has been to make gym equipment with a strong visual identity and always with an eye for the small details that makes a big difference.

With our skilled craftsmen alongside a strong network of local suppliers; we are of the conviction that the combination of high quality materials and timeless aesthetics is the best path to sustainability.

## CUSTOM ORDERS

Contact [info@fysik.com](mailto:info@fysik.com)

We understand the need for customization. This might be requesting a specific leather color or wood type to match your home. Or to design an equipment storage solution for a hotel gym. Or perhaps you want a bronze steel finish and your gym logo on a set of dumbbells. Whatever your custom order request might be; we are always curious to hear about it and will do our best to create the look and experience that you envision.

Contact [info@fysik.com](mailto:info@fysik.com) for custom orders.

# MATERIAL SAMPLE BOOK

---

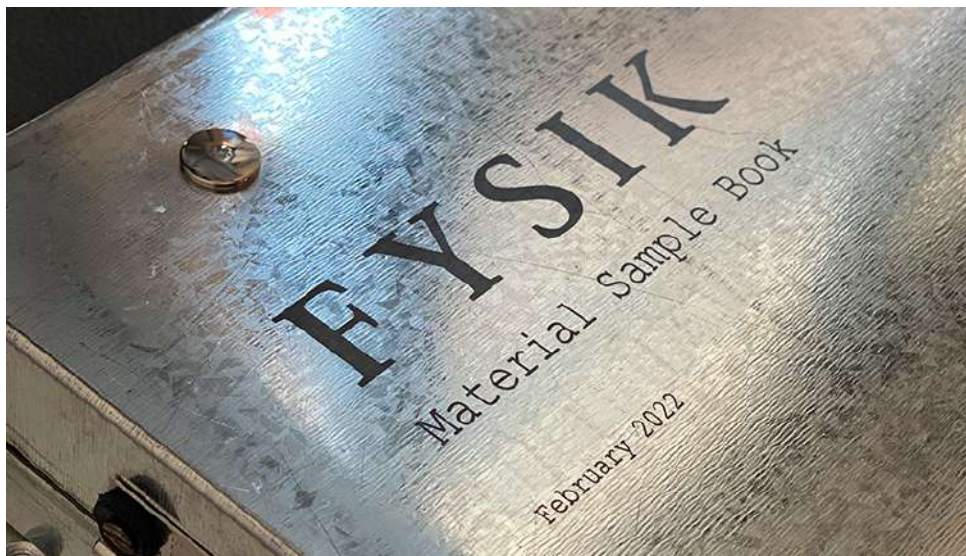

Contact [info@fysik.com](mailto:info@fysik.com)

We are driven by a passion to create bespoke solutions that go beyond the traditional - and with our new FYSIK Material Sample Book, we wish to inspire you to do the same.

Inside the box, you will find wood samples of teak, walnut, oak, maple as well as leather samples of black, white, tanned brown and saddle brown. Also, your creativity will get some help along the way with a specially made dumbbell swatch to combine wood and leather colour at your liking and present an idea of how a the real product will look.

Please note that wood is a living material and the colour of each leather batch is different. Therefore, no two FYSIK orders are the same and you may therefore expect samples with a variety in colour and grain pattern.

Contact [info@fysik.com](mailto:info@fysik.com) to order a *Material Sample Book*.
